

PyLickers - Instrucciones

1. Recorta cada tarjeta por el borde.
2. Cada alumno recibe una tarjeta con su número.
3. Para responder, sostén la tarjeta con la letra elegida ARRIBA:

A = letra roja arriba (posición normal)

B = letra azul arriba (girar 90° a la derecha)

C = letra verde arriba (girar 180°, boca abajo)

D = letra naranja arriba (girar 90° a la izquierda)

4. El profesor escanea la clase con la webcam.
5. El sistema detecta automáticamente cada tarjeta y su orientación.

Tarjetas generadas: 30
